Figure 16

Team Feedback

In looking at your first three journal entries:

- Source document 1 is journalized incorrectly. Consider what accounts are affected when cash is received by the business.
- You have incorrectly journalized source document 2. Take another look at the transaction details.
- You have correctly recognized source document 3 as an expense. However, you need to select a different expense account for your entry.

The screenshot shows a software window titled "Object Editor". At the top, there are two tabs: "InputID" and "InputName". The main area on the left is a large, empty white rectangle. To the right of this rectangle, the word "Input" is displayed in a large font. Below it, there are several labeled input fields: "Name:", "Description:", "References:", "Path:", a checkbox labeled "Tutor Aware", "TargetID:", and "SourceItemID:". To the right of these fields is a vertical toolbar containing icons for undo, redo, up, down, list, and other functions. On the far right, there is a panel with buttons for "OK", "Cancel", "Edit", "Delete", "AddNew", and a "0 of 0" indicator.

FIGURE 65

The screenshot shows the same "Object Editor" window, but with the "List" tab selected. The layout is similar to Figure 65, with a large white rectangle on the left and a "List" section on the right. The input fields in the "List" section are: "Name:", "Description:", "References:", "Path:", a checkbox labeled "Tutor Aware", "TargetID:", and "Total Columns:". The toolbar and the right-hand button panel are identical to the previous figure.
